THREE HILLS BALL TEAM VICTORIOUS

The Three Hills baseball team came down to Carbon on Friday last to play with the Carbon Juniors and the result was that the Three Hills team was victorious by a score of 17-9. The play was somewhat ragged and the teams are badly in need of practise before good baseball will be seen, although this was the first game of the season and was all that could be expected. The game was held on the new ball diamond east of town and with a little work this place will make an ideal place for a ball park.

The following was the line-up of the players:

Three Hills—R. Burke, M. Helton, H. Kock, A. Meston, R. Kock, J. Ellis, G. Jenkins, C. Tann, L. Shea.

Carbon—Leo Trepanier, G. Ramsay, E. Mottitt, J. Spence, B. Ramsay, J. Lynn, N. McClure, B. Edwards, and R. Wells.

Gordon Ramsay pitched for Carbon for the first two innings and Nelson McClure finished the remaining five innings of the seven inning game.

The work of the United Church was re-opened at Hesketh on Sunday last, when quite a number availed themselves of the privileges afforded. Services there as well as at other points will be held every Sunday and the public is most earnestly invited to attend.

TUGBOAT ENGINEER SAVED MARY'S LIFE

The mechanical skill of a tugboat engineer saved Mary Pickford and her staff from having to make an unscheduled trip to Hawaii during the filming of the star's latest picture, "My Best Girl," which will be shown at the Carbon Theatre on Saturday night.

To make the final sequence of the film, Miss Pickford, with her leading man, Charles Rogers; her director, Sam Taylor; the cameraman, Charles Rosher; and a group of assistants, boarded a big Honolulu liner in Los Angeles Harbor and "shot" her scenes as the steamer went down the channel and out onto the Pacific.

A tugboat was to pick up the company somewhere off Catalina Island and bring them back, but as the liner neared the appointed rendezvous, a dense fog descended, making it impossible to locate the tug. Constant whistling of allabore fish boats made it impossible to recognize the tugboat's signal. Miss Pickford grew anxious, for mail steamers cannot turn back to port, and to continue to Hawaii would ruin the picture schedule.

Finally, however, the tug suddenly loomed out of the fog, having been able to distinguish the steamer's hoarse whistle above the din of the tooting allabore fleet.

PREPARATIONS MADE FOR MANY SCHOOL FAIRS

Thousands of school children all over the province will shortly commence preparations for their district school fairs as the result of the distribution of seeds recently completed by the Department of Agriculture. Included in the seeds distributed to the school fair centres at Claresholm, Olds, Sedgewick, Vermilion and Raymond are 4,435 pounds of peas, 1265 pounds of beets, 565 pounds of turnips, 760 pounds of carrots, 970 lbs. of mangels, 505 packets of asters, 23,800 packets of stocks and 22,300 packets of cabbage seed. Last year a total of 115 school fairs were held throughout the province and it is expected that this number will be somewhat increased during the coming season.

He—Darling is it yet the psychological moment to ask your crabbed old dad for your hand?
She—It is, my hero—he is sitting in his stocking feet.

GOLF MEETING FRIDAY

A Meeting of the Carbon Golf Club will be held in the Municipal Office on Friday evening, May 3rd, at 8 p.m. sharp. All who are interested in this sport are asked to be present, as good golf is practically assured this year.

P. EDWARDS TO BUILD NEW POOL HALL & BARBER SHOP

Work was commenced on the new pool hall and barber shop between the Farmers Exchange and the Carbon Hotel. P. Edwards of the Carbon Hotel is having the building erected and it will be of the construction with a stucco finish, of a size of 30 x 76 feet. The hall is to have about eight billiard and pool tables and will also house three barber chairs, which, we understand, will be operated by L. G. McQuade, the local barber.

CARBON SCHOOL REPORT FOR THE MONTH OF APRIL

GRADE V—Willie Fox, Cecil Pham, Frances MacDonald, Elsie Bramley, Walter Davis, Jack Evans, Stella Dodyk, Charles Code, David Kaiser, C. Moore, Martha Gieck, Lena Weiss, Ethel Wiertz, Alena Jewell, Billy Oliphant, Albert Tuckotte.

GRADE IV—Betty Code, Finky Code, George Jealous, Bill Graham, James Hunt, Sidney Bramley, Verl Jacobs, Robert Wise, Casswell Jewell.

GRADE III—Agnes Skerry, Roy James, Gladys Bramley, Eugene Neal, Stanley Ramsay, Sammy Malton, Betty McQuade, Bennie Zeigler, William Dixon, Raymond Leray.

GRADE II—Ernest Fox, Albert Gieck, John Rogers, Cecil Trumbley, Jean Skerry, Harold Wise, (Elmer Wolf Alice Wolf and Jack Batsch), Zora Fairbairn, Douglas Prowse, Jack Heath.

GRADE I, A—Jimmy Gouldie, Isabel Gouldie, Elaine Torrance, Irma Jacobs, Mari Jaska, Mae Moore.

GRADE I, B—Irene Grenier, Victor Keehn, Billy Heath, Albert Bramley, Lucille Lemay, Lillian Dixon.

Teacher—What is a canibal, Tommy?

Tommy—Please teacher, I don't know.

"Well, if you ate your father and mother, what would you be?"

"An orphan, miss."

LITTLE ITEMS OF LOCAL INTEREST

H. A. English has had a flower garden put in front of the Imperial Lumber Yard office.

Mr. and Mrs. G. Peters and family are moving into the house which was vacated by A.P. McKibbin and family.

Wilfred Foxon was a Calgary visitor on Monday.

Miss Freda Ruff returned from Calgary on Monday evening.

Jos. Connolly went over to Acme on Saturday last to bring back his car, which was laid up for repairs.

W. Leitch and P. Edwards returned from Calgary Thursday evening last.

Mr. and Mrs. S. F. Torrance and Mrs. McKibbin were Drumheller visitors last Thursday.

L. Guttman returned Friday from Calgary, where he spent a few days visiting with relatives.

Geo. Batsch has installed a gasoline pump in front of his blacksmith shop. This makes the tenth pump for Carbon.

Mr. and Mrs. Oliphant went in to Calgary on Friday. Mr. Oliphant returned Sunday evening, but Mrs. Oliphant remained in the city.

Mr. and Mrs. L. Poxon were Drumheller visitors on Thursday last.

While Fred Sailer was burning off the stubble at his farm last Thursday a wind came up and carried the fire across to Robt. Little's place, where it destroyed a granary containing 600 bushels of oats.

C. D. Woodcock of the Merchants Retail Sales Service, Calgary, arrived last Sunday and is conducting a sale for C. W. Gray.

Johnny Becker and Dennis Wilson were Calgary visitors on Monday.

The Golf Club meeting which was to have taken place last Friday night was postponed and will be held tomorrow night, Friday, in the Municipal office.

Mr. and Mrs. J. A. MacDonald and Mrs. J. Ramsay attended the Card Party and Dance at Drumheller on Tuesday night. This affair was under the auspices of the Elks there.

Canada At War!

Canada is at war, and with the passing of winter, operations are being renewed and extended on all fronts against the common enemy. Happily, it is not warfare directed against any other people or nation, nor, in the final analysis, is it a destructive, life-taking, money-losing campaign in which the Canadian people are engaged. Rather, it is constructive, life-giving, money-making battle that is being waged.

The war to which reference is made is an unceasing one. It can never end, and victory can never be wholly complete. On the other hand, unless the battle is fought, and renewed from year to year, defeat for mankind is sure and inescapable. It is a case where eternal vigilance is the price that must be paid for life, liberty and happiness.

It is a war against dirt, disease, insects, bacteria.

In the spring of the year, as snow disappears and the frost leaves the ground, exposing the accumulations of winter, it is imperative that every householder, every community, "clean up." Failure to do so may, and in all probability will, result in an epidemic of sickness, not to speak of the unwholesome effect upon the mentality and habits of people living amidst unsightly, disagreeable surroundings. The necessity of an annual spring "clean up," and the maintenance of clean surroundings, and sanitary conditions throughout the warm summer months, is applicable alike to the farm and farm home, and the urban community and home.

The danger of the common house fly is now too well known to require emphasis. It is the greatest distributor of the filth and disease breeding germs upon which it thrives and breeds its countless millions. Destroy its breeding grounds and the battle is more than half won. When the first fly puts in an appearance, kill it, and you will be saved the trouble of swatting hundreds later on.

Then there is that most unpopular little humming bird, the mosquito, which turns so many of our long and lovely summer evenings and our beautiful summer resorts and sports grounds into places of torture. By taking early action this almost universal pest can be largely controlled. For years the citizens of Winnipeg have had life made miserable for them by mosquitoes, and each season witnesses more energetic and concerted effort to destroy them. Regina, no worse sufferer than other places, is this year, under the direction of the Kinsmen Club, assisted by other service clubs, the health authorities, Boy Scouts, and other organizations, taking part in the battle.

The mosquito breeds by tens of millions in stagnant water. Pools of stagnant water, slowly drying up sloughs, partially filled ditches, cannot all be drained, nor can their existence be wholly prevented, but through the simple expedient of scattering coal oil, and other oils, in these stagnant waters, these millions of potential mosquitoes will be destroyed. Regina is surveying the city and its surroundings from the air, thus detecting every spot of stagnant water, and these are to be impregnated with oil. If all our towns and villages locate these pools of stagnant water in and about them and take like action, life will be made more comfortable and enjoyable.

When cleaning old oil out of your motor car, tractor engine, or other machinery, do not throw it away. Save it, and spread it about in any stagnant water in your vicinity, and sink your old oil-soaked rags with a stone in such pools. By so doing you will prevent the breeding of mosquitoes.

This great and holy war is being waged in other directions and in even intensive fashion. Departments of agriculture, and the research departments of our Universities and the National Research Bureau in laboratories and in the fields, have for some years been engaged in the task of finding a means of eradicating rust from wheat, which takes its toll of tens of millions of dollars from the farmers of the prairies. According to latest authentic reports gratifying progress has been made, and the experts engaged in this work are now fairly confident they are on the right track, and that before long a rust resistant wheat will be developed, fully equal to other wheats in its early ripening ability, in yield per acre, and in its bread making qualities. Such a victory will bring huge rewards for the time and money expended. It is a form of constructive warfare which will reimburse Canada for many of its losses occasioned by destructive human war.

Agricultural and health departments of governments are in the van of this great, never-ending battle. The larger municipalities and many other communities are awakening to their responsibility. Semi-public organizations of many kinds are joining in the fray. As was the case in the Great War, scientists are doing their part, and doing it well. But as the Great War developed into a struggle between peoples, rather than armies and navies, in which every man and woman had a duty to perform, so in this other war in which Canada is engaged, everybody must be enrolled in the largest measure of success and victory is to be achieved. This is a war which recognizes no defined boundary lines; it must be waged everywhere; if the enemy remains unmolested in any one place or district, or even on any individual homestead, victories elsewhere will be of little avail. It is a universal war, demanding the active co-operation and alert vigilance of all.

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Ahead Of Schedule

First India-England Air Plane Made Trip In Seven Days

The first India-England aeroplane arrived at Croydon two minutes ahead of schedule. The air liner carried five passengers, 500 pounds of mail and negotiated the 5,000-mile trip from Karachi in seven days.

One of the passengers was Vice-Marshall Sir V. Vivian, who left Croydon on March 30 on the inaugural mail liner to India, arriving at Karachi April 6. He departed on the return flight within 24 hours, having thus covered 10,000 miles in fourteen and a half days.

CORNS

Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this wonderful remedy, and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

Alberta Coal For East

It is indicated that Alberta's coal shipments to Ontario during the special rate period will aggregate 200,000 tons.

RADIANT GIRLHOOD

Comes Through Rich, Red Health-Giving Blood

A girl with a full-blooded body and vital nerves has the foundation of an active, healthy life. Allow her to grow wan and delicate and prolonged ill-health and general weakness may be the result. Many women who ought to be in the very prime of life are too frequently sufferers of headaches, back and side aches, easily tired and breathless, because of anaemia which stealthily attacked them in girlhood.

But fortunately there is a remedy within easy reach. Thousands of tired, worn-out women and delicate girls who have sought the self-help of Dr. Williams' Pink Pills are grateful for the way in which these pills have restored them to robust fitness. This effective tonic and nerve restorer always helps to make plenty of rich, red blood that speedily puts an end to anaemia. A wan, delicate girl, or tired, weary woman soon becomes brighter when this new blood courses through the system. Color comes to her cheeks and lips; her appetite increases; her nerves are steadied, and she becomes vital and active again. The following is an example, from among thousands, of what these pills have done and can do: Miss C. J. Martin, Kitchener, Ont., says: "For several years I was greatly distressed with pains in the back and sick headaches. I felt tired all the time, did not sleep well and had a poor appetite. I had been doctoring, but did not get much relief. My sister advised me to try Dr. Williams' Pink Pills and after taking six boxes I felt like a new person, and will not be without the pills again."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Train Of Tractors

A special train of tractors, valued at \$400,000, recently reached Regina. There were 280 machines in all, occupying 70 railway cars. The tractors were distributed to farmer buyers in Saskatchewan and Alberta.

Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels untenable to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

Scientists in Russia are working on a device to keep the blood of a person in circulation and thus prolong life after the heart and lungs have ceased to function.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Extremator.

Insanity is said to be decreasing. Maybe it's because so many things that used to be considered crazy aren't any more.

Neuralgia succumbs to Minard's Linalment.

W. N. U. 1783

THE SECRET of Skin and Hair Loveliness

IN THE regular daily use of Cuticura Soap and the occasional use of Cuticura Ointment, women everywhere have discovered the secret of natural beauty. The Soap, fragrant and pure, to cleanse; the Ointment, antiseptic and healing, to remove pimples and irritations. Soap 25c. Ointment 25c. and 50c. Talcum 25c. Sample each free. Address: Canadian Depot: J. T. Wait Co., Ltd., Montreal.

Canada Wins the Banana Trade

Has Largest Banana Carriers Afloat Under Any Flag

The largest banana carriers afloat under any flag is the record claimed by the "Lady Somers" and the "Lady Rodney," the two new vessels of the Canadian National Steamships which went into commission recently. These steamers are equipped with the most modern cooling and refrigeration equipment, and are capable of carrying over 100,000 stems of bananas.

The "Lady Somers" sailed for Bermuda, the Bahamas and Jamaica, inaugurating the western service of the Canadian National Steamships between Canadian ports and the islands.

The ships are elaborately decorated, and the passenger accommodation is complete in every detail. Particular care has been paid to all details of the cargo space and the ship is completely insulated. The "Lady Somers" can carry fruits and vegetables requiring different temperatures. For cool climate the ship is equipped with devices to raise the interior temperature when necessary.

A Real Asthma Relief. Dr. J. D. Kellogg's Asthma Remedy has never been advertised by extravagant statements. Its claims are conservative indeed, when judged by the benefits which it performs. Expect real relief and permanent benefits when you buy this remedy and you will not have cause for disappointment. It gives permanent relief in many cases where other so called remedies have utterly failed.

Exports Tea In Lumps

China exports tea in solid lumps, like bricks, for consumption in Tibet and Siberia. The tea-leaves are pulverized, mixed with water, and moulded into hard cakes. The bricks weigh about 5 lb. each. In this form tea can be carried overland more easily, as it occupies less space.

"We are now," announced the guide, "passing through a rural hamlet."

"Oh," exclaimed the sweet young thing, "I thought a hamlet was a little pig!"

Had Many Rulers

Warsaw, the capital of Poland, has in turn been ruled by Sweden, Austria and Russia. In 1807 Napoleon made it the capital of the Duchy of Warsaw and during the World War it was captured by the Germans, who held it until peace restored Polish independence.

Nervous and Run Down The Least Noise Would Bother Her

Mrs. R. Burton, Oshawa, Ont., writes:—"Three years ago I was so nervous and run down I could hardly bear to have the children make a noise it would bother me so."

"A friend advised me to take

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling fine again."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Religious Groups In House

Roman Catholics form the largest religious group in the Canadian House of Commons, about 30 per cent. of the total membership. Adherents of the United Church come next and Presbyterians follow.

Medicine Chests

Are not complete without Minard's. Used for cuts, bruises and pains of all descriptions.

Make Sure Your Fence Is FROST TIGHT LOCK!

Your fence requirements on the ranch are no small item; you want your fence to last a lifetime. Put your faith in Frost Fence; more than 25 years of square dealing with the farmer are behind it. There is only one Frost Fence, only one Frost Lock, the lock that HOLDS under all Western conditions of strain and extremes of temperature. If there is no Frost dealer in your neighborhood, write to our nearest office.

must be in the hands of the printers
by noon on Tuesday or no changes
can be made or ads. discontinued.

EDOUARD J. ROULEAU,
Editor and Publisher

WHO PAYS FOR ADVERTISING?

The following article will be of in-
terest to those who believe that ad-
vertising adds to the cost of selling.

It is amazing how few people—
even busy business men—know the
fundamental principles of advertising,
and yet there is not a business that
is not in some way directly or indir-
ectly seriously affected by advertis-
ing.

People who really ought to know
better will argue that advertising
adds to the cost of selling. Success-
ful salesman sometimes argue that
"the firms advertising came out of
their salary"—just as if they would

be drawing more money if their firm
didn't advertise.

The opposition that some salesmen
feel toward advertising is basically
the same as the opposition of an un-
thinking mechanic toward labor-sav-
ing machinery.

Advertised products sell more easily
and more often than non-advertised
products. Advertising not only sells
goods, it increases the volume of in-
dividual purchases and speeds up
turnover.

Salaries come out of profits and
profits come from volume of sales—
not volume of production. If volume
is not there, then the profit per unit
of sales is proportionately smaller.

The manufacturer does not pay, be-
cause advertising increases the de-
mand for his product. The increased
volume reduces the manufacturer's
overhead and makes possible a de-
creased selling price. Besides the ma-
nufacturer obtains intangible but bank-
able asset—goodwill.

The retailer does not pay for adver-
tising. Advertising increases his turn-
over, bringing him quicker profits on
his investment.

The consumer does not settle the
advertising bill. He obtains the bene-
fits of lower prices made possible by
the increased volume that advertising
assures.

No one pays for advertising! Ad-
vertising pays for itself—and pays the
manufacturer, retailer and consumer
a profit besides. Who pays the salary
of the star salesman? The star sales-
man, himself of course. It's just the
same with advertising. It pays for
itself.

Thus He Slipped Away

Ephraim Walker Johnson, colored,
had by due process of law been hang-

ed in Florida. His funeral was being
preached by a Kentucky pastor, who
had known Ephraim since childhood.

"Brethren," said the preacher, "you
have come to pay your last respects
to the deceased. Brother Johnson.
This brother was bred and born in
Kentucky, where he grew to manhood.
He later gravitated to Tennessee,
then to Alabama, then to Georgia, and
last to Florida, where he met, wed
and killed his wife. This is the crime
he has now paid for. Brethren and
sisters, this deceased is now in hell,
and the only consolation that I can
offer the sorrowing relatives is that
he went there gradually."

**EXTENSIVE DEVELOPMENT OF
TAR SANDS PLANNED**

Extensive investigation of the bitu-
minous sand deposits in northern Al-
berta will be undertaken shortly as
the first step in the two-year program
of development of this valuable Al-
berta resource by the Scientific and
Industrial Research Council of Alber-
ta. The work will be conducted un-
der the direction of Dr. K. A. Clark of
the University of Alberta who for the
past several years has devoted much
time to investigations along this line.
The two-year program of tar sands
development is an additional feature
of the Alberta Government's compre-
hensive plans for northern develop-
ment. Keen interest is also being
shown in the soil survey under the di-
rection of Dr. Wyatt, the water sur-
vey carried on by Dr. Rutherford and
the Pre-Cambrian mineral survey to
be conducted by Dr. Cameron during
the coming season.

**CANNING COMPANY EXPECTS
BUSY SEASON**

Eighteen tons of dried peas shipped
to Taber during the past week will be
distributed throughout the district
and seeded on some 400 acres of land
leased by the Broder Canning Co. of
New Westminster and Edmonton. In
addition, a large amount of seed will
be sown in the Edmonton district on
the 1000 acres which the company has
leased for the growing of vegetables
required for the Edmonton factory.
These will include peas, beans, spinach
and beets, and an attempt will be

made to grow pumpkins in commercial
quantities for canning. Officials of
the company express themselves as
being well satisfied with the success
of last season's operations in Alberta
and propose to extend their program
during 1929 and subsequent seasons.

**ALBERTA WILL CO-OPERATE
IN RADIO CONTROL**

Co-operation on the part of the Al-
berta Government was assured the
members of the Royal Radio Commis-
sion at their session in Edmonton
during the past week.

"The government of Alberta" stat-
ed Premier Brownlee, "is willing and
ready to enter into negotiations with
the government of Canada and the
governments of the various provinces
with a view to the organization of ra-
dio broadcasting on a basis of public
service by some method that may be
mutually agreed upon by said govern-
ments."

**NEW BULLETIN ON WEED
PROBLEM ISSUED**

Alberta's Weed Problem, Bulletin
No. 3, has recently been issued by the
Field Crops branch of the Alberta de-
partment of Agriculture and is now
available for distribution through the
office of W. J. Stephen, Fields Crops
Commissioner. This publication brings
up to date much valuable information
dealing with the control and eradica-
tion of noxious weeds in the province
and will be read with attention by
farmers and others interested in this
problem.

ITALY DEMANDS EQUALITY AS TO NAVAL POWER

Geneva.—The problem of navy parity between France and Italy loomed out as a reef which might imperil the success of any five-power naval conference to reduce armaments.

Premier Mussolini is reported here as firm as a rock in demanding parity for Italy with France, both on land and sea, while France apparently fails to see the justice of such demands.

France thinks her communications with her extensive colonial possessions and her mainland open to two oceans are sufficient reasons for her having naval forces superior to Italy's.

This problem of satisfying Italy at least on paper is worrying delegates to the preparatory disarmament commission. Some are beginning to worry whether a real advance on the naval problem could not best be made by establishing first of all an understanding between the United States and Great Britain.

The Associated Press correspondent has received the impression that France would place no obstacle in the way of such a preliminary understanding if it did not affect her position in relation to other continental powers. A high French authority voiced recently enthusiastic approval of the speech of Hugh S. Gibson recently, because it gave a magnificent impetus to reduction in armaments as a whole.

This personality explained that France desired to hasten general reduction in armaments and hoped that delegates would even be able to submit a draft treaty to the September assembly of the League of Nations, thus permitting an international conference by 1930. This would involve a second session of the preparatory disarmament commission during the present summer, until which time he thought the naval question had better be adjourned.

Agrees With Gibson's Speech

British Government Shares Wishes Of U.S. On Disarmament

London, England. Sir Austen Chamberlain, British foreign secretary, told the House of Commons that the British government shares fully the hope and wishes of the United States government on disarmament as set forth in Ambassador Gibson's speech at Geneva.

"The government desired me to take this opportunity to express its warm appreciation of the cordial conciliatory spirit shown by the American delegates and give assurances on its behalf that in the same spirit and with the most earnest wish to reach a complete understanding it will consider the American suggestions," declared Sir Austen.

Sir Austen made his statement in answer to a question by Commander Joseph Kenworthy, Labor, whether Ambassador Gibson's speech had been called to his attention and what response his majesty's government proposed.

Airmen Killed At Toronto

Machine Went Out Of Control and Crashed Near Flying Field

Toronto. Noel Marshall and William MacKenzie, residents of Toronto, were killed when their aeroplane went out of control and crashed near the Leaside flying field.

It was reported that MacKenzie, who had but recently been granted a pilot's certificate, was in charge of the Gipsy Moth plane, with Marshall a qualified pilot, as a passenger.

The plane was said to have been but 150 feet from the ground when it went out of control and crashed with such force the engine burst it self.

British Election In May

London, England. Premier Baldwin announced in the House of Commons recently the prorogation and dissolution of parliament for May 19, nominations for seats in the House on May 29, and polling on May 30.

W. N. B. 1783

Win Empire Competition

King's Trophy In Rifle Match Goes To South African Cadet

Ottawa, Ont.—Cadets from South Africa won the King's trophy in the rifle match in 1928, which was participated in by 33,000 boys from all parts of the Empire. Canadian cadets won this trophy in 1927, and finished second in 1928. The results have just been made public by the National Rifle Association.

Commenting on Canada's performance the National Rifle Association report says: "Not only does Canada possess many more brilliant individual shots than any other country but she has a limited number of units capable of achieving very special distinction. When mass efficiency becomes the principal object of the many and fewer low scores have to be included in her national team, the premier prize, the King's trophy will return to the Dominion."

While Canadian boys have lost the King's trophy they have had other remarkable successes in the match. They won 82 silver medals which are awarded for scores of 99 and 100 points, and 152 bronze medals for scores of 97 and 98. The rest of the empire combined won a total of only 121 of these medals.

SUNDAY SCHOOL LESSON

MAY 5

WHAT HILKIAH FOUND IN THE TEMPLE

Golden Text: "Thy word is a lamp unto my feet, and light unto my path."—Psalm 119:105.

Lesson: 2 Chronicles 34:1-33.

Devotional Reading: Psalm 19:7-14.

Explanations and Comments

The Temple Repairs Which Led To the Finding Of the Book Of the Law, verses 8-13. When twenty-six years of age, Josiah turned his attention to the ruined temple and had it repaired. He placed in charge of the work the governor of Jerusalem, the official secretary and the official historian. They handed over to Hilkiyah, the high priest, the money which the people brought to the temple and gave to the Levites who were appointed to receive it. The overseers were Levites; other Levites encouraged the workmen with music; yet other Levites were scribes and officers and porters. The work was done faithfully and progressed rapidly.

The Finding Of the Book Of the Law, verses 14-16.—During the work upon the temple, Hilkiyah, the priest, found the book of the law of Jehovah given by Moses. This is believed to have been the legal portions (chapters twelve to twenty-six, and chapter twenty-eight) of our Book of Deuteronomy, which calls itself "The Book of the Law" and also "The Book of the Covenant." Some scholars believe that this had been long known, but had been forgotten during the idolatrous reigns of Manasseh and Amon, and Hilkiyah found the copy in the temple and read it to Josiah for the first time. Others hold that it was "a new and enlarged edition of the Book of the Covenant prepared for the needs of the times, and brought forth now because Josiah was a righteous king and would enforce its decrees." Dr. George Adam Smith points out that it is precisely from this time onward that the style and phraseology which are characteristic of Deuteronomy begin to affect the literature of Israel.

The Effect Upon Josiah Of the Reading Of the Book Of the Law, verses 17-21.—After telling the king that the work upon the temple was progressing well, the money having been given to the overseers and the workmen put at work, Shaphan spoke about the newly discovered book and read it aloud (the entire roll, according to 2 Kings 22:10). On hearing the words the king rent his robes in token of his troubled mind. "For," he said, "great is God's wrath against us, because our fathers have not done as this book commands." If we would see the effect the book must have had upon the susceptible soul of Josiah, we are advised to read chapters 22-26 of Deuteronomy ourselves with Josiah and his times in mind. The book contains explicit directions as to worship and conduct, and the penalty of national disobedience decreed was the loss of home and country. "For many generations warnings and precepts alike had been neglected, and when the day of doom should come, the sins of the fathers also would be visited upon the children. Could the doom be averted by speedy and complete obedience and penitence?"

"It is not enough to read our Bible. Its messages must be heeded. Learn and observe these words found in an old Bible."

When thou readest what here is writ, Let thy best practice second it; So twice each precept read shall be

First in your books and next in thee.

A CHARMING PRINCESS

Princess Ingrid, only daughter of the Crown Prince Gustaf Adolf, of Sweden, whose engagement to the Crown Prince Frederick, of Denmark, has been reported from Stockholm.

Will Perform Election Duties

King George Desires To Carry Out Usual Royal Functions

Bognor, Sussex, England.—The steady progress being made by the King is permitting the drafting of tentative plans for future functions, and there is every prospect these will be carried out. Transfer of the court from Bognor to Windsor Castle before Whit-Sunday, May 19, is contemplated in view of His Majesty's expressed desire to carry out the usual royal functions connected with a general election. The King will remain at Windsor Castle until the political situation permits him to go to Sandringham in Norfolk, where the east coast sea air has always agreed with His Majesty.

It is being suggested that a thanksgiving service for the King's recovery should be held in Westminster Abbey at the end of July, with similar services in other large cities.

Calendar Expert At Ottawa

M. B. Cotsworth Discussed Matter With Government Members

Ottawa. To aid in the suggested establishment of a national committee in Canada to consider proposed calendar reform and its effect on the Dominion, M. B. Cotsworth, of Rochester, N.Y., originator of the 13-month calendar idea, has paid a special visit to Ottawa. Mr. Cotsworth conferred with Dr. O. D. Skelton, under-secretary of state for external affairs, and H. H. Coats, Dominion statistician, respecting his proposition.

Organize Wheat Pool

Lincoln, Neb.—Wheat-raisers of Nebraska and Wyoming to the number of 200 have effected organization of a wheat pool, giving it the name of the Middle West Market Association non-stock co-operative. The Pool was said to represent 13,000 grain raisers in the two states and was declared to be the largest in the middle west.

Germany Wants Aerial Bombs Abolished

But Objections Were Raised By Several Countries

Geneva.—The German proposal to abolish the use of aerial bombs in warfare was defeated before the League's preparatory commission on disarmament. Only five countries were in its favor—Germany, Sweden, Holland, China and Russia. Those against it, including Canada, the U.S. and Great Britain, registered their objections with a rider that a negative vote was not to be interpreted as in any way authorizing the use of aerial bombs against civil populations.

Count Von Bernstorff, of Germany, pointed out the toll that could be exacted by bombing planes over Paris, Berlin and London, and said that this method of warfare was horrible and cowardly, because the combatants were protected by defensive appliances.

F. Sokal, of Poland, said no one would deny the horror of such methods but the conference had not reached that point and under the Kellogg anti-war pact was not likely to reach it. When war had been outlawed, it was illogical to begin codifying rules of war, he remarked.

M. Litvinoff, of the Soviet, here interpolated that Poland was among those who last year rejected the Russian proposals for complete abolition of armaments.

Answers King's Message

Viscount Willingdon Sends Reply On Behalf Of Dominion

Ottawa.—On behalf of the Canadian people, His Excellency Viscount Willingdon, governor-general of Canada, despatched a message to His Majesty King George, expressing joy over the "glad tidings" contained in the affectionate cable sent by His Majesty to his subjects throughout the Empire.

The message follows:

"Your Majesty's word will be received with the greatest joy and gladness by your loyal people of Canada on whose behalf I beg very respectfully to thank you for the glad tidings contained in your beautiful message. During the past months we have been filled with anxiety and sympathy over your majesty's serious illness. We can now rejoice that your majesty is well on the way to recovery and that her majesty has been relieved from the strain of anxiety which has enlisted our deepest sympathy. We trust before long to have the opportunity of joining with all your majesty's subjects throughout the Empire in a prayer of thanksgiving for your safe recovery and in a profound hope your majesty may long be spared to reign over your loyal and devoted subjects."

Receives Fellowship

Saskatoon, Sask.—Dr. William Allen, professor of agricultural economics at the University of Saskatchewan, has had a fellowship conferred on him which will meet the expenses of attending a conference of agricultural economists to be held during August in Devonshire, England.

MORE NORSEMEN FOR THE WEST

This photograph was taken at Winnipeg after the arrival of the first immigrant special train this season, over the Canadian National Railways, March 20. There were 205 broad-shouldered Scandinavians in a total of 269 arrivals, which included 22 British settlers. Two trains, which followed the first special a day later, brought the total of new-comers up to nearly one thousand. At least half were Scandinavians. All the immigrants have been placed by the Canadian National Railways' Colonization Department.

ANTI-SMUGGLING TREATY MAY GO TO ARBITRATION

Washington.—Terminating the diplomatic correspondence on the "I'm Alone" sinking, Canada replied to the United States rejoinder to the protest against the sinking by coast guards' gun fire on the high seas, of the Canadian schooner suspected of conspiracy against American liquor laws.

Hon. Vincent Massey, the Canadian minister, delivered to Secretary Henry L. Stimson, a note which is expected to reveal the Dominion's attitude to the "I'm Alone" case in particular, and the scope of the anti-smuggling treaty of 1924 in general.

It is generally accepted here that the United States wants the case to go to arbitration. It is expected Canada will accept. Arbitration probably will proceed under the provision of the 1924 treaty itself, which leaves any dispute over the seizure of a ship to a tribunal composed of representatives of both countries.

Because of the whole question of the right of "hot and continuous pursuit," under the treaty will be involved, the importance of the negotiations will transcend the single case of the "I'm Alone."

The British government is sitting back and letting Canada fight the case because the ship is of Canadian registry. But the decision will affect some far-reaching questions of territorial waters, and United States rights under the special treaty to claim the 12-mile limit specified in its own tariff act.

The treaty was signed by Great Britain, and technically London would have the right to say who would represent the British Empire on the arbitration board. It is likely that some prominent Canadian will be appointed, however, and he will serve for the Empire.

It is suggested here that the former secretary of state, Frank B. Kellogg, may represent the United States.

Convict Train Travels West

Seventy Prisoners Are Sent To Stony Mountain Penitentiary

Winnipeg.—The convict train, bearing 170 prisoners from Kingston, Ont., to western penitentiaries, reached here recently. Seventy prisoners were immediately transferred to Stony Mountain penitentiary, a few miles north of Winnipeg, while the remaining hundred continued the westward journey to Prince Albert penitentiary.

The convict train consisted of four steel coaches, the windows of which were heavily barred. Guards armed with rifles, were aboard the train, while during the stop here forty provincial policemen, also armed with carbines, stood guard.

The journey from the penitentiary at Kingston was uneventful, according to the prison guards.

Succeeds Lord Revelstoke

Paris.—Sir Charles Addis, director of the Bank of England, and noted English financial expert, has been appointed to succeed Lord Revelstoke as head of the British delegation at the conference on reparations. Lord Revelstoke died suddenly on April 19, wearied by the commission's abortive attempts to reach some settlement of the tangled problem of German payments.

Message For American People

San Francisco, Calif.—Sir Rabindranath Tagore, Indian poet and philosopher, sailed aboard the liner "Taylo Maru" for India, via Hong Kong. His final words to the American public were the expression of a wish that his people "would rise above indignities and insults to impart some beauty to the utter ugliness of the industrialization of the West."

Gibson's Proposals

Geneva.—It was understood here that Ambassador Hugh S. Gibson, American spokesman at the preparatory disarmament conference, would prepare a memorandum outlining United States disarmament proposals and hand this later to delegations

CHAPTER XVIII.—Continued

Donald's heart ached for this man, whose great love for his wife was as passionate at this moment as when she was living. "How he loved her!" he thought.

When Wainwright spoke again his voice was spiritless. "You are the first person to whom I have spoken of my past; even Constance does not know." As he turned to leave Donald gripped his hand in silence, but with a pressure eloquent of heart-felt sympathy.

Andy had noticed Donald's increasing interest in Connie and had wisely refrained from accompanying him on his nightly visits. On this particular night Donald came into the kitchen whistling a lively air, his face wreathed in smiles. He slapped Andy heartily on the back as he asked him for a lunch. His gaiety was so pronounced that Andy studied him closely.

"You look 'appy, Donnie," he remarked.

"I am, Andy; I'm the happiest man in the world."

He finished eating, then sat staring dreamily at the smoke of his cigarette as it circled about his head. Andy discoursed lightly on various subjects, but Donald did not seem to hear him. After he left Andy

TIRED, WEAK, NERVOUS WOMAN BENEFITED

Praises Lydia E. Pinkham's
Vegetable Compound

Asbestos Mines, Quebec.—"After the birth of my second child, I was always feeling tired, nervous and weak and had headaches, backaches and terrible pains every month. I suffered two years before I tried Lydia E. Pinkham's Vegetable Compound. I got four bottles at first and it did me a world of good. I would not be without it in the house now, and have another six bottles in. I recommend it to every woman I know."—Mrs. T. BARRITT, Box 114, Asbestos Mines, Quebec.

W. N. U. 1783

heard him singing merrily in his cabin.

"Strike me pink, but I do 'ope Donnie has waked up! What a pair, what a pair!" he said to himself.

In the morning Donald rode north on the gas-car to the scene of logging operations near the upper lake. He left orders with the men to bring Wainwright's baggage to the station. What Connie's absence would mean was brought forcibly to him as he met the trapper leading Pegasus and her pet deer down the trail to his cabin.

Two hours later Connie and her father stood on the station platform. Connie was dressed in an inexpensive blue suit, and wore a neat blue hat with a jaunty feather. Her golden hair was piled high in loops and coils that held a sheen of brightness like the shine of metal where the sun touched it. She appeared mystified and confused as the time for the train to pull out drew near. Andy, standing by her side, cursed softly as he saw her looking toward the mill, a look of poignant disappointment in her eyes.

"Donald 'ad to go up the line, Connie; guess something 'as 'appened," he mumbled.

At that moment Donald was heaping opprobrium on a recalcitrant gas-car that had died on his hands. The conductor called "All aboard!" Connie turned to Andy. "Good-bye, Andy," she said sweetly, her eyes swimming with tears.

Andy took her gloved hand. "Good-bye, Connie," he returned, attempting a brave smile. "When are you coming back?"

"Maybe never," she choked as she stumbled up the car steps.

As the train started to move Connie came to the rear platform. A small, pathetic figure she seemed to Andy as she strained her eyes toward the north in a vain hope that she would see Donald. Andy stood in the centre of the track waving his hat until the flutter of Connie's little handkerchief vanished around a curve.

As the train roared through the cut, the last view of her loved valley flashed before her eyes. Her face strangely white, she clung to the brass rail and gazed with tearful eyes at the only home she had ever known.

As they passed the trapper's cabin, the noise of the rushing train sent Pegasus galloping madly about the pasture. With flying hoofs that tore up the sod he circled around the field, then came to the fence and with his beautiful head held high on the arched neck he looked with startled eyes at the speeding train.

With a gesture intensely eloquent, Connie flung out her arms. "Good-bye, Peggy! Good-bye!" She found her way to a seat and covered her face with her hands.

Donald flung himself from the gas-car before it had ceased moving. "Train gone, Andy?" he shouted.

Andy stood with arms folded. "Gone?" he yelled, "of course it's gone. Why in 'ell wasn't you 'ere?"

"I had to go up the line to look over some logs, and the car broke down," replied Donald bitterly.

"Of course," Andy with withering sarcasm, "the timber couldn't 'ave waited another day."

"Andy," asked Donald excitedly, ignoring the remark, "did Connie leave you her address?"

"Why the 'ell should she give me 'er address? 'Aven't you 'er address?" was Andy's unaccommodating reply.

"No, I haven't, I know that they are going to England, and that is all."

Donald sat down dejectedly.

Andy's face softened. "Do you like Connie?" he queried.

"Like her? I love her!"

"In that case I don't see 'ow she didn't let you know where to find 'er," puzzled Andy.

"She doesn't know that I care for her," said Donald gloomily.

Andy's mouth opened. He seized Donald by the shoulder. "Do you mean to tell me that you let that girl get away from you without letting 'er know that you wanted 'er?" he demanded incredulously.

"Strike me 'andsome," blazed Andy, "of all the blinkin' mutts in this 'ere world—you—you—" Speech failed him for a moment. "You let that dear little girl go away broken-hearted."

"Andy," interrupted Donald eagerly, "do you think Connie cares for me?"

For a moment, as he looked into

his friend's face, Andy was tempted to tell him of the scene after his fight with Hand. But the promise to Connie sealed his lips.

"Ow the 'ell should I know?" he mumbled. "But," he added with fine sarcasm, "if bone was ten cents a cubic foot you'd be a multi-millionaire, you blinkin' ple-eyed nincompoop—you—you—" He clapped a tragic hand to his brow. "You give me a 'eadache," and muttering to himself, he trudged up the hill.

The next day Donald went to Vancouver. He scanned the registers in hotels, inquired at docks and depots, but no trace of the Wainwrights could he find. He walked the streets with a forlorn hope that he might meet them. The hearts of many slender golden-haired girls were set fluttering that day as a tall, handsome young man subjected them to a close scrutiny.

Two days later he returned to the lake. That night he switched off the light and sat by the open window looking out on a night of stars, with a new moon making a ghostly light on the lake. An owl's mournful hoot was answered by the uncanny cry of a heron. The faint sighing sound of streams in distant gorges became a haunting chorus to this duet. He thought of Connie's cabin up the mountain, now cold and dark. How he would miss her! What an idiot he had been not to have known long ago that he loved her. He knew now that he had loved her from the first. Dear little Connie!

Donald walked the floor until midnight. Once in bed, he tossed restlessly until the early morning, then fell into fitful sleep in which he dreamed of a small, winsome face and big blue eyes surrounded by a wealth of golden hair.

September with its days of mellow sunshine passed. October brought

heavy hoar frosts that covered the earth with a robe of diamonds, and formed ice in the small pools and marshes. Winter comes early in the mountains. In mid-winter the valleys between the peaks of the Coast Range will have five feet of snow when, a few hundred feet below, where the warm waters of the Pacific lap the gentle slopes, the grass is green and there is none of the chilly whiteness that mantles the towering hills above.

There came a day in November, when the air held a solmen stillness. The firs and pines pointed straight to the sky without a quiver in their branches. The brown earth seemed to say, "I am ready." The cry of the loon in it had a dreary sound, a note which seemed to say that winter was coming. Squirrels working in the tops of big pines increased their efforts. The cones, nipped off by their sharp teeth fell pattering to the ground, to be garnered by these busy little workers and secreted in their nests in hollow trees. The bear of the hillsides ate the frozen berry or the pulp of rotten log to cleanse its stomach before starting its long winter sleep in windfall or cave. Thus does Nature give to the wild things of the forest an instinct unknown to man.

(To Be Continued.)

An Oil That Is Prized Everywhere.—Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

Sir Arthur Keith, British scientist, said that fish have no memory and no mind. He learned that in a laboratory, not in a trout stream.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

The popular breakfast entree, the grapefruit, is said to have been introduced into Florida in the sixteenth century, by the Spaniards.

Minard's Liniment relieves pain.

"Do you know Lord Heathmoor? I've often shot at his country seat." "And did you ever hit it?"

IT'S folly to suffer long from neuritis, neuralgia, or headaches when relief is swift and sure, thanks to Aspirin. For 28 years the medical profession has recommended it. It does not affect the heart. Take it for colds, rheumatism, sciatica, lumbago. Gargle it for a sore throat or tonsillitis. Proven directions for its many uses, in every package. Every drug store today has genuine Aspirin which is readily identified by the name on the box and the Bayer cross on every tablet.

Capital Invested In Irrigation

Construction costs of ten major irrigation projects, now operating in southern Alberta amount to about \$31,800,000, or an average cost of approximately \$31 per acre for the area of slightly more than one million acres.

COMPLEXION IMPROVED

... QUICKLY!
Look Fit! Be Alive!
Get rid of that pasty, sallow, blemished complexion! Instead of spending many dollars on fancy creams and skin lotions, buy a 25c pkg. of Carter's Little Liver Pills and remove the constipation poisons. Your skin will be quickly cleared, and your health improved. All Druggists 25c and 75c red pkgs.
CARTER'S LIVER PILLS

In the sky and on the highways modern motors, developing greater power and operating at higher speeds, demand better lubricants. Marvelube was developed to meet this demand. It is a better motor oil because it is made by better methods from a better crude petroleum.

Produced by the Special Marvelube distillation process, it is free from injurious sulphur and costly carbon. It has remarkable body, and because it is manufactured under the constant supervision of Canada's most expert refining technicians you are sure of unvarying quality and unending satisfaction.

Aircraft operators, the most exacting buyers of oil, prefer Marvelube because it has been proved in actual service that it affords longer intervals between engine overhauls.

Marvelube insures smoother performance, longer engine life and lower operating costs for any car, old or new. There is a grade of Marvelube refined to meet the exact requirements of your car. Consult the Marvelube recommendation chart at good dealers' or at Imperial Oil Service Stations.

NORRIS

DON'T MISS IT

Snicklefritz ----

Old Burglar—Don't trouble to reckon how much we've pinched. Bill. It will be in the papers in the morning.

Father—You say you are crying because you jammed your finger?

Son—Yes, sir, I put my finger in the jam and mother caught me doing it.

They were baking.
"Boy," said the camp cook, "stick a knife in the cake and see if it is done, and if it comes out clean you'll know its done."

"Yes," said the camp director, "and if it comes out clean stick all the other knives in too."

The old gentleman was a trifle bewildered at the elaborate wedding. "Are you the bridegroom?" he asked a melancholy-looking young man.

"No, sir," replied the young man. "I was eliminated in the semi-finals."

Why is the letter Y like the rent-collector?

Because it makes Pa pay.

At a wedding reception the young man remarked: "Wasn't it annoying the way that baby cried during the ceremony?"

"It was dreadful," replied the prim little maid of honor. "When I get married I'm going to have engraved right in the corner of the invitation: 'No babies expected.'"

**C. N. R. BUILDING PROGRAM
AUTHORIZED**

Bills authorizing the construction of Canadian National Railway branch lines from St. Walburg, Sask. to Bonnyville, Alberta and from Alliance to a point near Youngstown were passed at the Dominion House of Commons on Thursday. It is expected that construction will start at an early date on these lines, which will open up large areas of productive land.

**Who Does Your
Printing?**

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

WHEN IN NEED OF PRINTED MATTER CONSULT
